

LEGS

Livestock Emergency Guidelines and Standards

Supporting livelihoods-based livestock interventions in disasters

LEGS TRAINING

Delivered in person across Africa, Asia, the Middle East and Latin America, and now accessible online, LEGS offers a range of training courses to equip humanitarian and livestock experts with the knowledge and skills to implement livelihoods-based livestock emergency responses. Whether you're a seasoned practitioner or new to the field, LEGS training provides the critical expertise needed to make a real difference in livestock-keeping communities facing crisis worldwide.

“

LEGS training was very useful for me... [it's] broadened my knowledge to respond to any emergency situation. I believe that the knowledge and skills will be very useful for proper planning and responding to protect livestock assets during emergencies in the future.

Bhesh Raj Bastola,
Animal Health Training and Consultancy Service, Nepal

”

500+

LEGS trainings held by the end of 2023, reaching 10,400 individuals in 58 countries.
